Suggestions for the Use of Taxonomic Keys: (a) Appropriate keys should be selected for the materials to be identified. The keys may be in a flora, manual, guide handbook, monograph, or revision. If the locality of an unknown plant is known, a flora, guide, or manual treating the plants of that geographic area may be selected.

Otto Kandler's main subject in microbiology was his research on archaea (before 1990 called "archaebacteria"). His discovery (October 1976) that peptidoglycan (murein), a typical cell wall component of bacteria, is missing in two strains of methanogenic "bacteria" ( methanogens ) [5] became one of the first three pieces of evidence [33] that ...

Common Cell Culture Problems: Poor Cell Growth -- Ensuring adequate cell growth is a critical part of collecting accurate data with cell cultures. Cells can be cultured in suspension, or as a monolayer that attaches to cultureware, such as a flask, dish or multiwell plate. Here we explore reasons for poor cell growth and provide recommendations on how to avoid this issue.
